An Update on our Southbridge Transition

The change from Extendicare to Southbridge has been a busy but positive change. While there has been very minimal change to residents and families, management and staff have completed education on the new software, as well as learning and implementing the Southbridge policies and procedures. We have met with our new support office team and new regional support staff which has been great.

As part of the transition, our pharmacy changed to Care RX so new forms went out to POAs to sign up, and that has gone well. The Executive Director has met with the new Capital team to plan some projects for this year. The flooring in Short Hills and Burgoyne home areas were replaced and are looking great. We are getting quotes to replace the main oven in the kitchen as it is becoming dated and replacement parts are more difficult to get, and a quote to replace or remove the awning over the front entrance, and to replace the missing portions of siding on the front of the building.

If you have any questions or concerns, please feel free to stop by my office or phone me at 905-934-3321 x.202

Thank you,

Lisa
